Is it time to design your own chairs ?

Design the model made from plywood by yourself, using the foam, paint and a fabric of the quality you want.

The skeleton of the chair is from us, the design is from you. Choose the model that suits the market you are in and leave the rest to customer demand and your imagination.

DOSIN PLYWOOD

DOSIN PLYWOOD is an FSC-certified boutique plywood manufacturer dedicated to producing high-quality, custom-made plywood solutions for the European market.

Unlike mass-production facilities, we focus on flexible and customer-oriented manufacturing, allowing us to deliver tailored plywood components that meet specific design, technical, and quality requirements. Our production facility is equipped with two high-frequency presses and one resistance press, enabling a daily production capacity of approximately 400–500 units while maintaining exceptional quality standards.

Our FSC certification reflects our commitment to responsible sourcing and sustainable forestry practices. By combining skilled craftsmanship, advanced manufacturing technology, and strict quality control processes, DOSIN PLYWOOD provides reliable and environmentally responsible solutions for furniture, interior design, children's products, and industrial applications.

With extensive export experience across Europe, we pride ourselves on offering premium products, personalized service, and long-term partnerships built on trust, quality, and sustainability.
